

PEAKY BLINDERS

What gangsters do in their spare time?

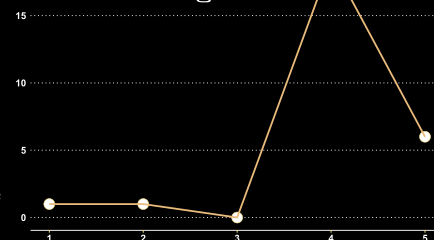

How many times shady activities were mentioned during each episode?

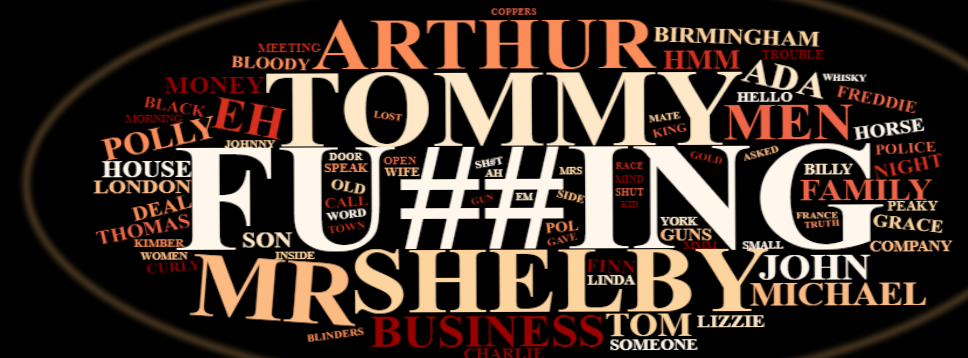

Peaky Blinders, as befits gang members did not actually avoid various drugs and other shady entertainments such as gambling. The action takes place over the course of ten years, therefore we observe those thrills shifting in new directions. Starting mostly with alcohols like whisky or beer, the gangsters gradually broaden their horizons and start using harder drugs, such as cocaine. The above graph presents the number of situations in which they were mentioned. The peak we see in the fourth season can be misleading. It may seem that the Peaky Blinders have thrown a great party, but in fact, Tommy Shelby was talking serious business. You want to know more? There is a little hint for you in a graph below. Still not satisfied? Go watch the series, it is worth it anyway!

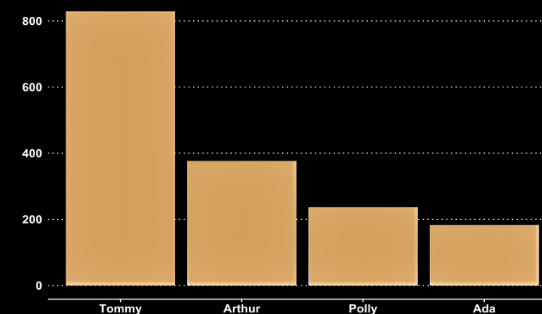

Want some gin?

Graph shows appearances of word "gin" over the course of five seasons.

Have a problem? Call Tommy

Thomas "Tommy" Shelby -

the head of the Shelby clan and a leader of a street gang Peaky Blinders. No wonder that he is always in the center of events. The above graph shows how many times the names of the most important characters appear throughout the entire series. Tommy's name is mentioned once every two minutes on average.
